

# GDPR Awareness Workshop

## Do you need help preparing you and your staff for the General Data Protection Regulation (GDPR)?

Under the GDPR, a Data Controller or Data Processor must ensure that any personnel who have permanent or regular access to personal data within their business receives appropriate data protection training. This comprehensive workshop will help you:

- ✓ gain a solid working knowledge of the GDPR and what is involved;
- ✓ understand your responsibilities as a Data Controller or Data Processor;
- ✓ know a Data Subject's rights;
- ✓ work with privacy notices and information requirements;
- ✓ fulfil security obligations, cross-border controls, data breach notifications and subject access requests; and,
- ✓ understand the role of the Supervisory Authority – the Information Commissioner's Office (ICO).

**Hosted by solicitor and certified privacy professional, Yvonne Morris
